## Conseils d'épandage

### Recommendations for spreading

### Ratschläge für die Streuung

EXEMPLE :  $L = 24m - 1/2 L = 12m$

## Conseil Généraux / Conseil d'utilisation

### General Recommendations / Recommendations for users

### Allgemeine Ratschläge / Ratschläge zur Bedienung

- Lire attentivement le manuel d'utilisation de l'EXPERT avant toute manipulation.
- En raison des variations d'état des différents engrais, il peut apparaître des différences par rapport aux indications des tableaux et vos réglages.
- Les valeurs de réglage ne sont données qu'à titre indicatif.
- La réalisation des essais de débit et de largeur est vivement conseillée pour obtenir la plus grande précision de réglage possible.
- Vérifier qu'il n'y ait personne autour de la machine avant d'effectuer l'essai.

- Please read carefully the instruction manual before using the magnum.
- Due to fertilizers' varying conditions there might be differences in comparison with the indications of your setting tables.
- The indicated settings are to be considered as guide values.
- A test run for verification of calibration and spreading width is strongly recommended, in order to make sure of the most accurate settings.
- Check that there is no-one around the machine before testing.

- Vor inbetriebnahme das handbouch Magnum sorgfältig lesen.
- Aufgrund der veränderlichen Merkmale der verschiedenen Düngersorten Können.
- Abweichungen im Vergleich mit den Angaben in Ihren Streutabellen auftreten.
- Die Einstellwerte sind als Richtwerte angegeben.
- Mengenkontrollen und Streubreitenkontrollen werden unbedingt empfohlen, um die größtmögliche Genauigkeit zu erzielen.
- Sich vor Ausführung der Probe vergewissern, daß sich niemand im Maschinenbereich aufhält.

- Bien choisir votre jeu de pales en fonction de vos besoins.
- L'épandage sur une largeur inférieure aux valeurs indiquées sur la pale est possible. Une attention particulière sera à porter sur l'épandage de bordure.
- Pour les épandages à une dose inférieure à 150 kg/ha, augmenter le repère de réglage de largeur du tableau de 5 graduations.

- Make the right choice of blades according to your needs.
- Spreading on an inferior width to the indicated value on the blade is possible. Please bring your attention to the border spreading.
- For the spreading of less than 150 kg/ha, the setting mark as indicated in the setting chart has to be raised by 5 scale-graduations.

- Den Wurfchaufelsatz entsprechend Ihres Einsatzes wählen.
- Die Streuung in einer kleineren Arbeitsbreite als die auf den Wurfchaufeln markierten Streubreiten ist möglich. Besondere Aufmerksamkeit ist dabei bei Grenzstreuung nötig.
- Für die Ausbringung von Streumengen unter 150 kg/ha ist die in der Einstelltable angegebene Markierung um 5 Teilstriche zu erhöhen.
